

Cyber Coverage Built for the Way Business Operates Today

Cyber Risk Has Changed

Cyber losses today are more complex, more disruptive and can be harder to recover from. AI enabled fraud, longer downtime and increased regulatory scrutiny have reshaped what businesses face after a cyber event. Risk-e Business was built for that reality.

Coverage That Looks Beyond the Breach

Cyber incidents rarely stop when systems come back online. Risk-e Business is designed to support businesses through:

- Recovery that takes longer than expected
- Financial, regulatory and reputational impact
- The real strain placed on leadership and operations

This is coverage that addresses the full arc of a cyber loss, not just the initial event.

Modern Protection, Clearly Delivered

Risk-e Business brings modern cyber coverage together in a way that stays clear and practical. It is built on:

- Evolving threats like Artificial Intelligence
- Aligning coverage with how losses unfold
- Remaining easy to explain, easy to defend

Confidence When It Matters

When a cyber incident happens, clarity and coordination matter.

Risk-e Business is backed by Great American's cyber claims expertise and designed to promote confidence at claim time, so recovery can move forward.
