ABA Insurance Services

CYBER INSURANCE PROGRAM OVERVIEW

Cyber insurance protects businesses from computer, network, and internet based risks. The policy covers both first- and third-party loss. Businesses that use the internet and email, accept credit cards, or use a system network most likely need cyber insurance.

Our history with cyber insurance dates to 2001. With deep institutional knowledge, **ABA Insurance Services** offers the coverage and claims expertise needed to help protect against today's exposures.

CYBER RISK SECURITY RESOURCES

Great American policyholders have access to eRiskHub® powered by NetDiligence®, and SecurityScorecard. When a cyber event occurs, time is of the essence. Having a plan in place with access to the third-party resources your client needs can help them efficiently and cost-effectively respond and recover.

eRiskHub® | The eRiskHub® portal provides your client tools that will help them assess their risk and prepare for and/or modify their response plan. eRiskHub® resources include:

- Incident Response Plan Templates
- Approved Third-Party Vendors
- Articles & Whitepapers
- Cyber News & Blogs
- Videos & Webinars
- Tools & Calculators
- Best Practices Checklists
- Cyber Risk Assessments

SecurityScorecard | All insureds can request a SecurityScorecard that rates your client's security environment by assessing the company's domain and using key clues on their website. The report covers ten different security areas and provides action items to help improve your client's security profile.

ProCision®
